Material

Transparent polyamide resin indicator which provides optimal mechanical resistance performances and high strength against chemical agents, oil, gasoline, fuels and a variety of solvents. Asbestos-free flat washer seal.

Description

Transparent oil level indicator with threaded end, hexagonal body and barrel-shaped viewer, so as to enable even a lateral side.

Notes

Maximum suggested working pressure: 3 bar.

Avoid contact with alcohol-based solutions, detergents containing alcohol in general, anti-freeze liquids at high temperatures and hot water over 80°C.

Package

1 - 50 - 100 pcs.
