Material

Plug made from reinforced thermoplastic material (Polyamide 66) with 30% fiber-glass providing an excellent mechanical resistance at both low and high temperatures.

Flat washer asbestos-free seal FASIT 202. A rubber or O-Ring seal can be mounted upon request.

Description

Hexagon socket-head threaded plug to reduce the outer space to a minimum.

Colour

Black.

Assembly

Use normal hexagon wrench by respecting the tightening values (Nm) indicated in the table.

Notes

Special execution in PA6 with 50% fiber glass for increased mechanical torque (see data in the table) and for the use with continuous operating temperatures up to 120°C, for peaks of 150°C.

Package

1 - 50 - 100 pcs.
